

FOR IMMEDIATE RELEASE

Ramp Closures at I-69 and SR 46 on Thursday and Friday

Full and partial ramp closures needed to remove old high mast lighting fixtures

BLOOMINGTON, Ind. (February 18, 2019) – This week The Hoosier Company, Inc. will remove old, obsolete lighting fixtures in and around the I-69 and SR 46 interchange. Safely dismantling the pre-interstate fixtures will require ramp closures.

On Thursday, February 21 the ramp from southbound I-69 to eastbound SR 46 will be completely closed. At the same time, the left lane of the ramp from SR 46 to northbound I-69 will be restricted.

Southbound motorists can use the College Avenue exit to access east SR 46, or continue on southbound I-69 to the SR 48/3rd Street interchange, return to northbound I 69 and use the northbound I-69 to eastbound SR 46 ramp.

On Friday, February 22 the ramp from northbound I-69 to westbound SR 46 will be completely closed. At the same time, the right lane of eastbound SR 46 will be closed approaching the signal at the entrance of the ramp to southbound I-69.

To access westbound SR 46 from the interstate, northbound motorists should continue on I-69 to the Sample Road interchange, return to southbound I-69 and use the ramp from southbound I-69 to westbound SR 46.

Signage and electronic message boards will be placed indicating closures and detours. Motorists are urged to be aware of changing traffic patterns in the I-69 and SR 46 interchange during the latter part of the week.

The construction is weather dependent and the schedule is subject to change.
